

## **What happens to your Recyclables?**

**Recyclables are picked up in blue and green bins or other reusable containers at the curb on your scheduled pickup day.**

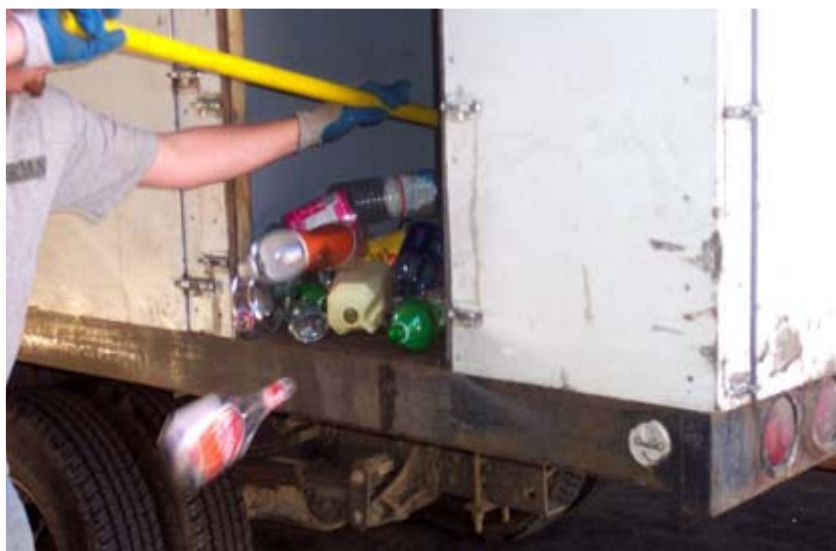

**Recycling containers are emptied into a section of the recycling truck where someone is waiting to separate the recyclables into plastic, glass, metal and newspapers.**

**Cardboard is placed in a separate section on the recycling truck.**

**Once the recycling truck is full, the recyclables are taken to a local processing plant.**

**Unloading plastic at the processing plant.**

**Plastic bottles at the processing plant.**

**Glass at the processing plant.**

**Newspaper at the processing plant.**

**Dumping cardboard at the processing plant.**

**The recyclables, at the local processing plant, are baled and shipped to various plants that will turn them into new products.**
